- Nigeria has requested India to share the Co-WIN platform and support the setting up of such a platform

India is ready to share its experience and expertise regarding the covid-19 vaccination programme rollout with the help of the digital platform called Co-WIN with other countries especially those in Africa, R. S. Sharma, chief executive officer of National Health Authority, said on Wednesday.

Speaking at a webinar organised by the New Delhi-based think tank Research and Information System for Developing Countries (RIS) on “Coping with COVID: experiences of developing countries in vaccine platforms and rollout”, Sharma said India’s rich experience of vaccinating its huge population and the challenges faced by the system on account of the country’s linguistic and demographic diversity could be shared with other countries, especially from the developing world.
